## First Bus

First Bus has nearly 9,000 buses carrying 3 million passengers a day in more than 40 major UK towns and cities.

Our main areas of operation are urban areas such as London, Aberdeen, Glasgow, Manchester; Bristol, Bath & the West, York, Leeds, Calderdale and Huddersfield.

We also have operations in Belfast, Dublin and Cork. In recent years we have invested over £220 million in new buses include articulated buses, double deck buses, single deck buses and guided buses. Our new low floor buses offer easier access for parents with pushchairs, wheelchairs and the elderly.

Our entire bus fleet has been converted to run on ultra low sulphur diesel fuel and we are committed to converting the entire UK Bus fleet to sulphur-free 5% biodiesel where supply is available.
